

Tesla Wall Connector

The most convenient universal home charger

Wall Connector is the most convenient charging solution for homes, apartments, hospitality properties and workplaces.

Wall Connector is compatible with all EVs and can provide up to 70 km of range per hour of charge, with up to 11.5 kW / 48-amp output.

Connecting the Wall Connector to a local Wi-Fi network enables it to receive over-the-air firmware updates, access controls, remote diagnostics access and usage data tracking.

Power-sharing allows up to six Wall Connectors to share power from one circuit while still allowing each vehicle to receive a sufficient charge

4-year warranty for residential uses, 1-year for commercial

High value price point: Primary competitors charge 700€+ for comparable products
